Partner Network**

Partnership Network Program

BITE Consulting Services is an International Business and Information Technology company. BITE Consulting Services provides its customers with IT and Business consulting services. Having had many years of experience, exploring industries that our clients want to work in and help their business activities in different industries. Our aim is to help organizations develop their customer relationships, delivering them optimal decisions after which they will be capable of gaining a significant profit in the market.

BITE Consulting Services collaborate with more than 100 international companies. Advantages of becoming the partner of the BITE Consulting Services are to have access to BITECSPN (BITE Consulting Services Partner Network), and organizations that perform solutions, business reports, projects supports, discounts for products and academies. Partnership Program allows you to build up new business relations in our BITECSPN and make your business big with better roots of market where you have to be, setting up the partner culture for the nearest future, new opportunities for your local market, and support you with vital business solutions for all the markets. BITECSPN gives you benefits by delivering its solutions, support, products and services around the world.

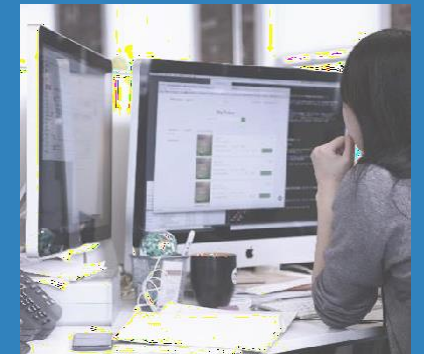

Type of Partnership Program

Having access to the BITECSPN will make you able to receive the highest quality of training, joining the award winning program for your business growth, and expand your business. We help you for your expertise, your success, your industry and your investment in the business relationship. Our goal continues to improve the BITECSPN collaborating with our partners, focusing on our partners ideas and skills. BITE Consulting Services provides the partners with the access into BITE MEETNG where you can develop and deploy your solutions with us.

We do have three(3) types of partnership relations with our international partners including: Software, Business and Service & Solution. In their own turn these types are separated as in Platinum, Gold and Silver samples.

Partnership Program Software

The opportunities to face new global projects, sharing your knowledge and experiences. It is possible to take part in our GLOBAL PROJECTS BOARD and elect individually the projects which you are interested in and want to serve. Simultaneously, our software partner is able to use discounts given for our products. It gives extra opportunity to become software distributor or reseller of BITE Consulting Services. Also, the software partner ranked by Platinum, Gold and Silver level of samples. The partnership program gives software partner chance to be able to join our academy for trainings and get discount in return for trainings. Our trainings and certificate are trusted by international organizations.

We invite our Software partners to our international conferences which will be held in Europe, America, Middle East, Central Asia and Pacific regions. Your organization can have the membership of BITE MEETING. Getting membership gives you a chance to follow events and conferences. At the same time, it will make you able to share your new ideas or join the new projects from GLOBAL PROJECTS BOARD whilst the meetings are happening with new partners or customers.
